

CASE STUDIES

LAURA
3 months since diagnosis
Immediate bilateral mastectomy
Chemotherapy - 5 rounds through, 3 to go (every other week)
Radiation will start after that (every day for 6 weeks)

SHARON
6 months since diagnosis
Finished with chemo, just starting radiation
Colostomy pouch

KAREN
One month post treatment
Surgery followed by radiation
Declined chemotherapy

MARTHA
18 months since diagnosis
Double mastectomy
5 months dose dense chemotherapy
7 weeks radiation
Reconstruction pending

TRACEY
5 yrs post treatment
Lumpectomy turned into mastectomy (thank goodness)
20 lymph nodes removed
6 months of chemo followed by 6 weeks of radiation
3 reconstruction surgeries
Lymphedema therapy for 1 year
Regrets not having double mastectomy
